The consultant shall determine the design population and per capita supply rates based on appropriate projection technique. The designs shall be in compliance with the relevant Indian Standards (as amended up to date, with all correction slips) and CPHEEO manual. Wherever such standards are not available, appropriate standards shall be followed after discussions with the BRIDCUL.
- b) Study the existing industrial wastewater system and available plans with the SIDCUL, Pantnagar & Pollution control Board Haldwani. Prepare feasibility analysis, preliminary designs, drawings and preliminary cost estimates, after conducting necessary investigation study, for the work of improvement / extension of wastewater system.
- c) Carryout site survey including taking levels with a view to fix alignment of pipelines and decide on introduction of additional facilities / engineering parameters. The consultants shall also look at aspects like optimal / effective utilization of the existing infrastructure with a view to minimize the project cost.

Carryout site evaluation analysis based on borehole data and soil tests.

## 5.2 SCOPE OF CONSULTANCY

The scope of work includes Industrial Wastewater System improvements by way of improvements to existing wastewater system connecting to existing pumping system and evaluation of the existing pipes and replacement of pipes, expansion of Wastewater network of the uncovered area. The study shall also include:-

1. Conceptual Study of the prevailing wastewater components from existing network to Pumping station to existing 4MLD CETP by comparing and contrasting the system requirement which was designed and functioning with the base year with that of the ultimate year requirement under the present DPR with base year.
2. Study the existing wastewater system and suggest ways of strengthening of all the existing system to ensure that the industrial wastewater generated at source to be cater to existing CETP. All available maps and drawings shall be studied (Annexure-D).
3. For the identified measures, analyze the technical and operational feasibility, prepare detailed design, drawings and cost estimates.

### 5.2.1 DETAILED ANALYSIS AND DESIGNS

1. Atleast 4 site visit during the construction s per direction of the project manager.
2. For the identified components, analyze the technical, operational, financial, and economic feasibility.
3. Prepare industrial wastewater system maps and maps of other infrastructure including contour map of proposed sewer line.
4. For the feasible options, prepare detailed working drawings and designs with specifications.

### 5.2.2 COST ESTIMATE

After carrying out the studies, drawings and designs, the consultant after discussions shall prepare the following:

1. For such of those items requiring investments prepare detailed cost estimates item wise, using the latest schedule of rates. Estimate necessary road restoration charges wherever needed. The consultant shall assist the BRIDCUL in getting administrative / technical Sanction for the estimates along with design from the competent authorities. There should not be any lump sum items in the bill of quantities. For items not covered under schedule of rates, market rates shall be obtained from available sources and the least cost adopted in the estimate.
2. Prepare project implementation schedule for execution and contract packaging plan.
3. Draw up project budget with monthly targets, furnish network analysis such as CPM / PERT for purposes of effective project monitoring and regular reports.

### **5.2.3 DATA**

The consultant shall be wholly responsible for procuring all the details required for the proposal either from the corporation or by conducting field investigations /soil investigations/ survey of the project area. All data utilized in preparation of the DPR shall be presented in the report indicating the sources of the data and also the basis of assumptions, if any. The consultant shall be responsible for all the data given by them.

### **5.2.4 SURVEY AND ANALYSIS**

The consultant shall conduct a detailed topographical survey of the project area. The survey shall be done in line with that of the requirement for wastewater scheme but not limited to the following list of details

- The survey shall be done by Total Station in the field physically. Details like Main Roads, Internal and Connecting Roads, Public Landmarks, Water Bodies, All Street Names, Important Structures /Monuments, Religious Structures, New Layouts, Administrative Boundary, Roads bends, Culvert crossing, Railway Crossing, Nallah Crossing, High Tension Power line Crossing, Road name, Road width, Road length Existing Pump Houses, Temporary Bench Marks, Permanent Bench Marks, Levels at every 30m interval, contours, etc., with Proper Layer Management System shall be captured under the present survey.
- Bench mark reference will be taken from GTS near by Project Area
- Level transfers shall always be carried out as closing traverse between the benchmarks. Level transfers will be carried out using AUTO LEVEL within an accuracy of +\_0.3" or better.
- Benchmark marked on permanent structure at every 2km at suitable locations shall be furnished in a separate layer in the survey drawing
- Level Interval shall be at every 30m on along the road and at all road junctions and at locations of change of directions & Slope. Heights shall also be provided wherever the topography warrants.

### **5.2.5 SOIL INVESTIGATION AND TESTS**

Soil tests as per relevant IS / IRC Standards have to be done by consultants to arrive at design parameters for the formation and to arrive at the safe bearing capacity. At main lines where depth of sewer is more than 3 m the SPT N values shall be determined at depth specified in the relevant IS codes to confirm the rock stratum

below ground and also to determine the continuity of such rock stratum. Soil samples taken from boreholes should be visually classified, index properties determined and presented in the final report. These boreholes should be normally taken to a depth whose 'N' value is greater than 100 plus a further 1-m depth (to account for any drastic fall in 'N' value below these strata). Recommendations of a geo-technical expert should be furnished in the soil report and should cover aspects like appropriate soil stabilization measures if required, bearing capacity of the founding strata, recommendation for suitable foundations, etc., Essential Soil Trial Pits shall also be made along the road sides within the project area to ascertain the type of sub soil namely normal soil, soft clay / black soil, disintegrated rock or had rock, etc.,

#### **5.2.6 INSTRUMENTATION**

All necessary instrumentation to carry out the study, field investigations, and survey shall be arranged and operated by the consultants at their own cost.

If the Consultant is dissatisfied with the instructions or decision of the Dispute Review Expert, the Consultant may, within 15 days of the receipt of the decision, appeal to the MD, BRIDCUL who shall afford an opportunity to the Consultant to be heard, if the latter so desires, and to offer evidence in support of his appeal. The MD, BRIDCUL shall give his decision within 30 days of receipt of Consultant's appeal. If the Consultant is dissatisfied with this decision, the Consultant shall within a period of 30 days from receipt of the decision, give notice to the MD, BRIDCUL for appointment of arbitrator failing which the said decision shall be final binding and conclusive and not referable to adjudication by the arbitrator.
  2. Except where the decision has become final, binding and conclusive in terms of Sub Para (i) above, disputes or difference shall be referred for adjudication through arbitration by a sole arbitrator appointed by the MD, BRIDCUL. If the arbitrator so appointed is unable or unwilling to act or resigns his appointment or vacates his office due to any reason whatsoever, another sole arbitrator shall be appointed in the manner aforesaid. Such person shall be entitled to proceed with the reference from the stage at which it was left by his predecessor.
  3. It is a term of this contract that the party invoking arbitration shall give a list of disputes with amounts claimed in respect of each such dispute along with the notice for appointment of arbitrator and giving reference to the rejection by the MD, BRIDCUL of the appeal.
  4. It is also a term of this contract that no person, other than a person appointed by MD, BRIDCUL as aforesaid should act as arbitrator.
  5. It is also a term of this contract that if the Consultant does not make any demand for appointment of arbitrator in respect of any claims in writing as aforesaid within 15 days of receiving the intimation from the Engineer-in-charge that the final bill is ready for payment, the claim of the Consultant shall be deemed to have been waived and absolutely barred and the BRIDCUL shall be discharged and released of all liabilities under the contract in respect of these claims.
  6. The arbitration shall be conducted in accordance with the provisions of the Arbitration and Conciliation Act, 1996 (26 of 1996) or any statutory modifications or re-enactment thereof and the rules made there under and for the time being in force shall apply to the arbitration proceeding under this clause.

7. It is also a term of this contract that the arbitrator shall adjudicate on only such disputes as are referred to him by the appointing authority and give separate award against each dispute and claim referred to him and in all cases where the total amount of the claims by any party exceeds Rs. 1,00,000/- the arbitrator shall give reasons for the award.
8. It is also a term of the contract that if any fees are payable to the arbitrator, these shall be paid equally by both the parties.
9. It is also a term of the contract that the arbitrator shall be deemed to have entered on the reference on the date he issues notice to both the parties calling them to submit their statement of claims and counter statement of claims. The venue of the arbitration shall be such place as may be fixed by the arbitrator in his sole discretion. The fees, if any, of the arbitrator shall if required to be paid before the award is made and published, be paid half and half by each of the parties. The cost of the reference and of the award (including the fees, if any, of the arbitrator) shall be in the discretion of the arbitrator who may direct to any by whom and in what manner, such costs or any part thereof shall be paid and fix or settle the amount of costs to be so paid.
10. The arbitration shall be conducted in accordance with the arbitration procedure stated in the Clause no. 5.20 below.

#### **5.19 REPLACEMENT OF DISPUTE REVIEW EXPERT.**

#### **5.20 ARBITRATION:**

- 5.20.1 Excepting the decisions taken by the Managing Director, BRIDCUL, all disputes or differences whatsoever arising between the parties out of or relating to the construction, meaning and operation or effect of this contract or the breach thereof shall be settled by arbitration by a reference to the sole arbitrator or the person appointed by the Managing Director, BRIDCUL and the award made in pursuance thereof shall be binding on the parties. Such arbitration shall be governed by the Indian Arbitration and Conciliation Act, 1996.
- 5.20.2 It is also the term of this agreement that consultant shall have no objection whatsoever, in the appointment of an officer of the BRIDCUL as the sole Arbitrator by the Managing Director.

#### **5.21 FORECLOSURE OF CONTRACT DUE TO ABANDONMENT OR REDUCTION IN SCOPE OF WORK.**

If at any time after acceptance of the consultancy tender, the BRIDCUL decides to abandon or reduce the scope of the work for any reason, the Engineer-in-charge shall give notice in writing to that effect to the consultant and the consultant shall act accordingly in the matter. The consultant shall have no claim to any payment of compensation or otherwise whatsoever, on account of any profit or advantage which he might have derived from the execution of the work. Further, the consultant shall not have any claim for compensation by reasons of an alteration having made in the scope of work which shall involve any curtailment of work as originally contemplated. However, the consultant shall be paid at contract rates full amount for works executed to the extent and accepted by the Engineer-in-charge.

#### **5.22 MODIFICATION.**

a) Modification of the terms and conditions of this contract, including any modification of the scope of the Services, may only be made by written agreement between the Parties. Pursuant to Clause 5.23 hereof, however, each party shall give due consideration to any proposals for modification made by the other Party.

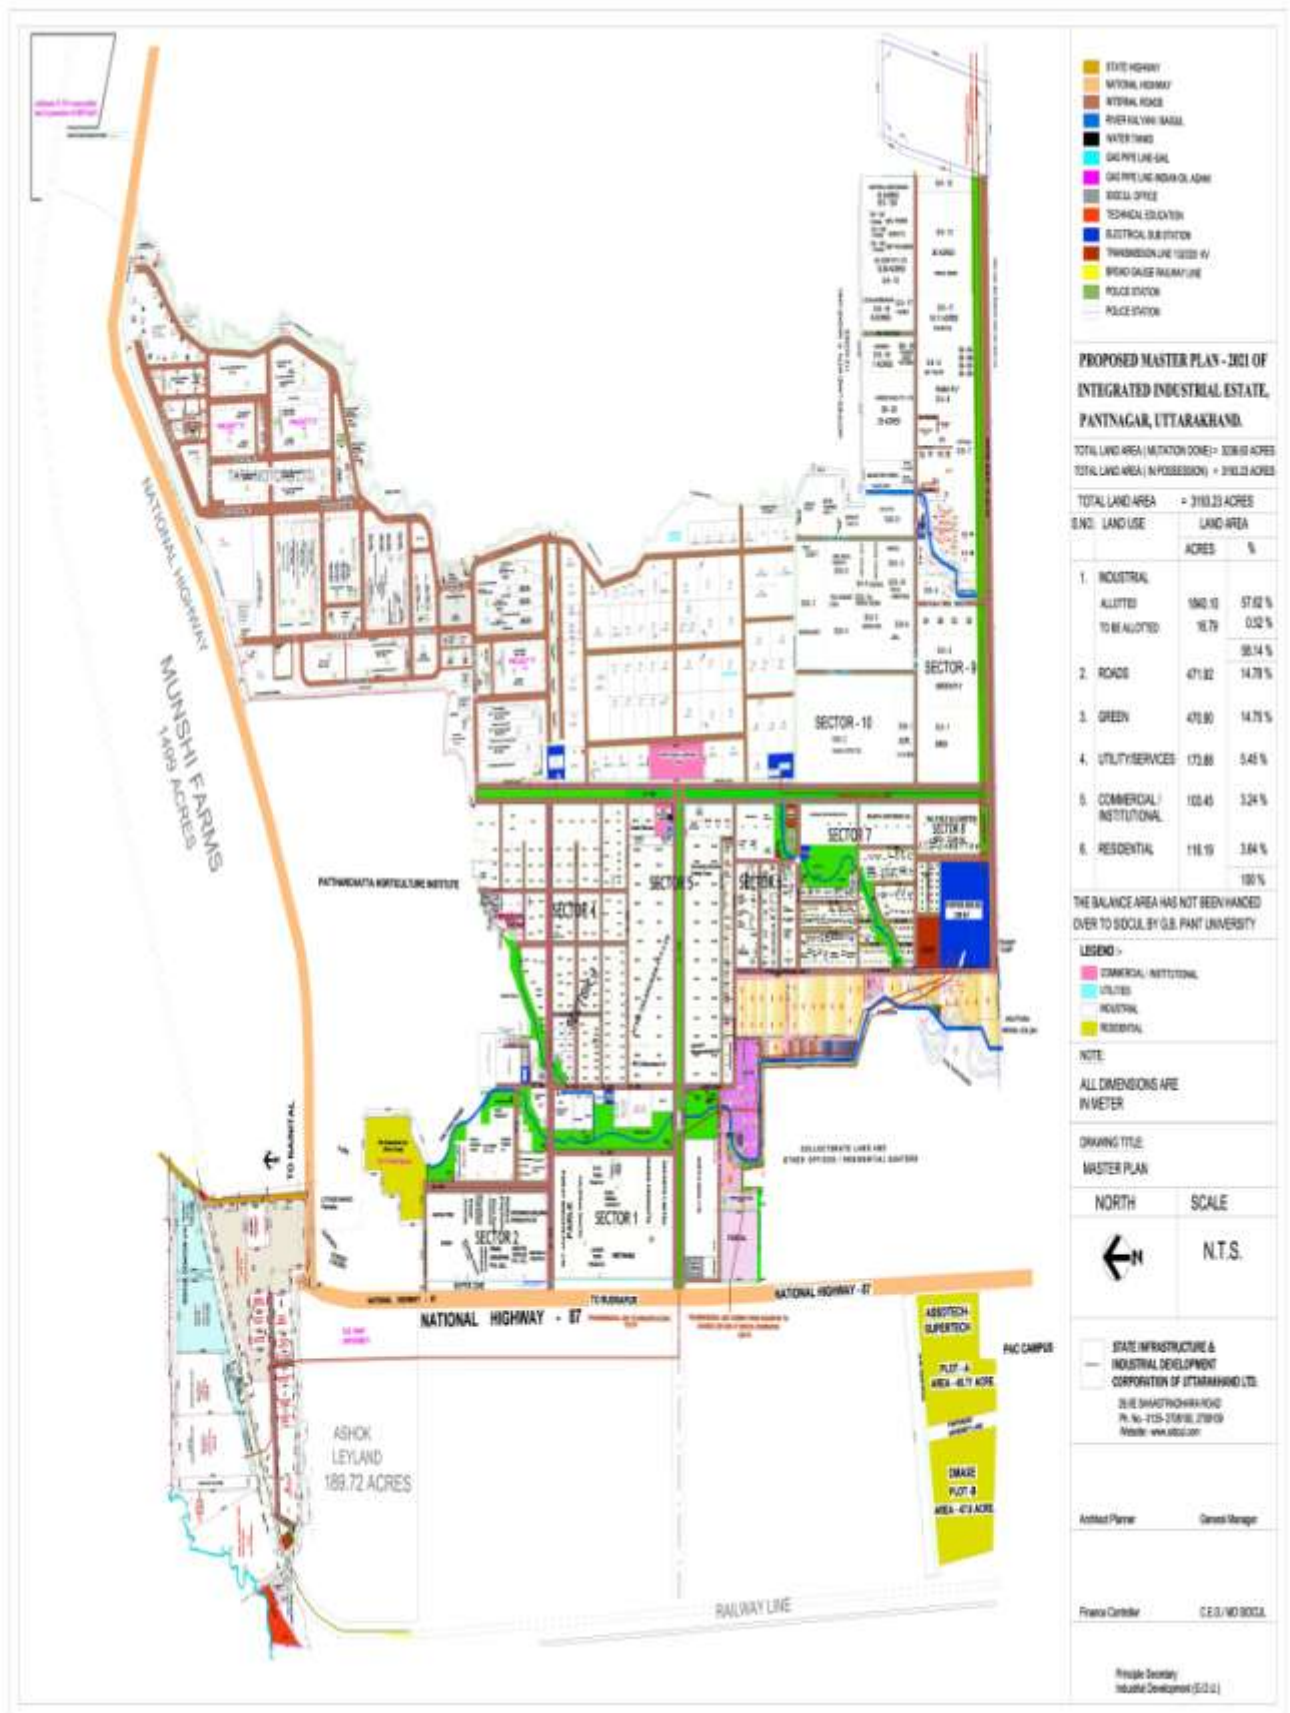

b) In case scope of work is increased on account of requirement of additional facilities, the consultant shall be paid for additional DPR in the same proportion as their quoted fee for the present scope of work with respect to the sanction amount of DPR excluding centage& contingency.

### **5.23 OPERATION**

The parties recognize that it is impractical in this Contract to provide for every contingency which may arise during the life of the Contract, and the Parties hereby agree that it is their intention that this contract shall operate fairly as between them, and without detriment to the interest of either of them, and that, if during the term of this Contract either Party believes that this Contract is operating unfairly, the Parties will use their best efforts to agree on such action as may be necessary to remove the cause shall or causes of such unfairness, but no failure to agree on any action pursuant to this Clause shall give rise to a dispute to arbitration in accordance with Clause 5.17 section 5.

### **5.24 KEY PERSONNEL**

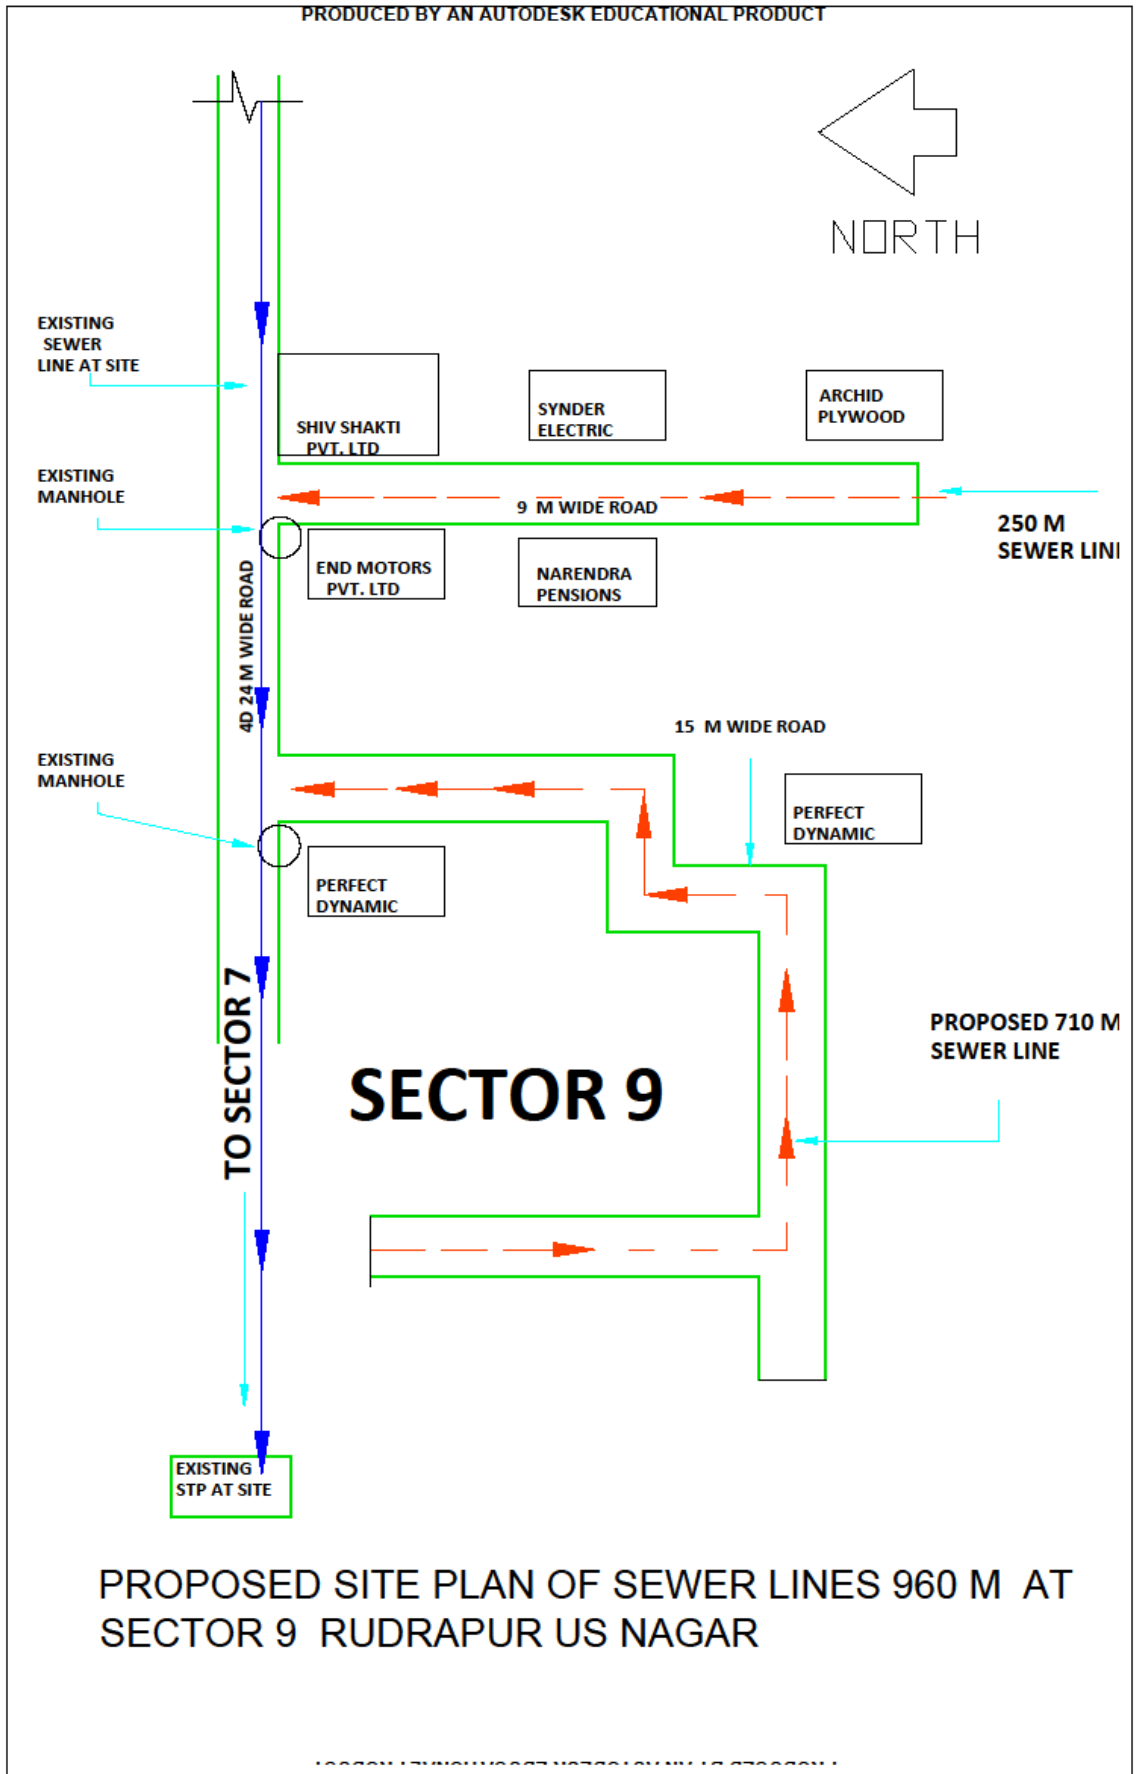

- a) The Consultant shall submit the CVs of key personal before finalization of Contract Agreement.
- b) Key Expert(s)” means an individual professional whose skills, qualifications, knowledge and experience are critical to the performance of the Services under the Contract.
- c) If any of the Key Experts become unavailable for the extended validity period, the Consultant shall provide a written adequate justification and evidence satisfactory to the Client together with the substitution request. In such case, a replacement Key Expert shall have equal or better qualifications and experience than those of the originally proposed Key Expert. The technical evaluation score, however, will remain to be based on the evaluation of the CV of the original Key Expert.
